SUMMARY

B.Tech undergraduate passionate about building web applications, databases, and data analytics projects. Quick learner with strong teamwork, communication, and analytical skills, seeking an opportunity to apply technical knowledge, enhance problem-solving abilities, and grow in a professional environment.

EDUCATION

B.Tech — Computer Science & Engineering

Sept 2023 – Present

Shri Ram Murti Smarak College of Engineering & Technology, Bareilly
CGPA: 7.37 / 10

Higher Secondary — CBSE

2021

Radha Madhav Public School, Bareilly

Secondary — CBSE

2023

Radha Madhav Public School, Bareilly

PROJECTS

Movie Review Platform

github.com/anshika-026/MovieReviewPlatform

- Developed a movie browsing website where users can search movies and read/write reviews using TMDB API.
- Built a backend server with Node.js and Express.js to handle storing, updating, and deleting reviews.
- Used MongoDB Atlas as the database to save user reviews linked to specific movies.

Technologies: Node.js, Express.js, MongoDB Atlas, JavaScript, TMDB API, GitHub

Flix45: SQL Analytics

github.com/anshika-026/Flix45-SQL-Analytics

- Designed a PostgreSQL star-schema database modelling a Netflix-style streaming platform.
- Authored 10+ business-driven SQL queries covering genre trends, completion rates, revenue breakdown, and churn prediction.
- Key insight: Premium users generate 48% of revenue despite being 37% of subscribers.

Technologies: PostgreSQL, Power BI, VS Code, GitHub

NexLearn: AI Tutor

github.com/anshika-026/NexLearn

- Built a GenAI-powered study tutor using Google Gemini API with subject-wise question answering, quiz generation, and topic explanation features.
- Implemented multi-mode interaction (Ask, Quiz, Explain) with persistent chat history and a clean, user-friendly interface.

Technologies: Python, Google Gemini AI API, GitHub

Personal Portfolio Website

github.com/anshika-026/portfolio-website

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, and achievements.
- Implemented interactive user interface components including scroll animations, mobile navigation, and gradient UI design.
- Organised project information, GitHub/LinkedIn links, and resume download in a professional, recruiter-friendly layout.

Technologies: HTML5, CSS3, JavaScript, Responsive Web Design, GitHub

TECHNICAL SKILLS

Languages & Core Tech: Python, SQL, JavaScript, HTML, CSS, C++
Database Management: PostgreSQL, MongoDB, MySQL
Web Development: Node.js, Express.js
Data Analytics: Power BI, SQL Analytics, Excel
Developer Tools: VS Code, Git, GitHub
Soft Skills: Teamwork, Problem-Solving, Communication

CERTIFICATIONS & TRAINING

Data Analytics — Novitech R&D Pvt. Ltd	Jan 2025
Data Analytics Job Simulation — Deloitte	Aug 2024
Ethical Considerations for Generative AI — IBM	Sep 2024
Data Science Internship — Outrix	Dec 2025
